

HVS2-series

The Hawc HVS2-series is a line of compact but powerful desktop workstation for client visualization up to 5K resolutions and H.265 (HEVC) decoding. The HVS2-series can support multiple video streams over 4 DisplayPort interfaces. Based on an Intel Coffee Lake Core platform and powered with a Nvidia P620 graphics card the HVS2-series have no limits for your graphic requirements. The HVS2-series use silent professional grade fans with high lifetime expectations and noise cancelling technology which increases the reliability.

An integrated 1TB HDD allows to archive images and exports locally.

The Hawc-PowerStation-series boot very fast thanks to SSD technology and offers full protection against viruses, malware and unauthorized software installation by use of the Microsoft Lockdown Features.
